

REACH

1. EG-act No. 1907/2006 (REACH)

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) affects manufactures and importers of substances (chemicals) about > 1t/a. Not affected are preparations and products.

Substances:

Chemical elements and its connections (including the use for the stability of the necessary chemical additives and the applied process caused by the pollution).

Preparation:

Mixture, composition or dilution, consist of two or more elements.

Products:

Items, which get a specific form, surface or figure by producing, determines a bigger composition in its function like the chemical composition.

Manufacturers and **importers** are required to register, which means substances have to be registered.

Distributors and **downstream users** are not required to register.

Manufacturers:

Natural or legal person established in the Community who manufactures a substance within the Community.

Importers:

Responsible for the import duties (= physical introduction into the customs territory of the Community).

Distributors:

Only storing of a substance on its own or in a preparation, placing on the market to third parties; this also include retailers

Downstream users:

Use of a substance on its own or in a preparation in the context of its industrial or commercial activities, with exception the manufacturer or importer.

Annotation:

It is not specified that the manufacturers of products must provide a proof of substance registrations. Material declarations are not part of the REACH Regulation.

2. Declaration of m.a.l. Effekt – Technik GmbH

m.a.l. Effekt – Technik GmbH is neither a manufacturer, importer nor a user of substances (chemicals).

We also produce no products and import no products, containing certain dangerous substances that can escape from these products. m.a.l. Effekt – Technik GmbH is not affected from the current REACH – act 1907/2006 incl. amendment of act 2025/1090 from August 11th, 2025.

3. Candidate-list of distressing substances (SVHC)

m.a.l. Effekt – Technik GmbH does not use any **Substances of Very High Concern** mentioned on the candidate-list ECHA, Status June 25th, 2025.

10.09.2025

m.a.l. Effekt – Technik GmbH, Wiesenweg 6, D-36179 Bebra
